

Choose Your Plastering Style

From 6 Styles available

PFT G 4 Smart neXt Generation
World's best plaster spraying machines
(With automatic water & mortar mixing ratios)

N1 Putty Gypsum Plaster & Texture Spraying Machine

N2 Cement & Gypsum Mortar Sprayer (Wet mix type)

1

Model Number : DP-N1
Voltage : 220V/50Hz
Motor power : 1kw
Pressure controlling : 20bar
Max. hose length : 50m
Spraying pressure : 20bar
Nozzle Size : 3,4,5,6 mm
Net weight : 88kg

2

3

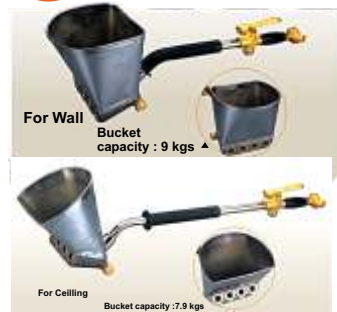

Model Number : DP-N2
Voltage : 380V
Motor power : 4kw
Pressure controlling : 30bar
Max. hose length : 50m
Spraying pressure : 20bar
Compressor : 2.2 kw
Nozzle size : 6, 8, 10, 12mm
Net weight : 160kg

For Pumpable / Sprayable
ready-mixed dry mortars &
Lime- gypsum plaster total weight

*Two men can easily
hand carry the machine*

600 Sq.ft. per hour with any type of plaster (Cement, Gypsum Putty & Level Plast etc.)

4 Plaster Gun

For Wall
Bucket capacity : 9 kgs

For Ceiling
Bucket capacity : 7.9 kgs

PLASTER GUN

- Air Inlet : 1/2"
- Suggested Air Compressor : 3 HP
- Working Pressure : 4-6 bar
- Tank 80-100 Ltrs.

5 Plaster Box

6 Automatic Rendering Machine

Provides high quality wall rendering.
Can achieve mortar coating and
smoothing in the same time.
Comes in
600/800/1000mm

**SAVES 75% LABOR COSTS,
UPTO 600 SQMTR/DAY (8
HOURS),**

INCREASES PRODEUCTIVITY 15-

Can plaster walls of Bricks/concrete
blocks /fly ash blocks
For internal use only.

Don't need specialized workers.
Speeds up the work of plastering, no material wastage, less cost
and time savings.
Can use any kind of plaster, no maintenance, very simple to
clean.
Can use interior / exterior.
