HL-680M	1000	680	1165	85	800
Electric High Lift Pallet Truck					
SPB -1000E	1000	540	1150	85	800

Two robust size stabilizers automatically come in contact with the ground when the forks reach a height of 240mm.

After this the steering wheels are raised off the ground and the truck is then immobile, giving good stability. The truck can only be moved at lift heights below 240mm

Front support legs

Side stabilizers
