

Features

Specially designed clamping attachments for handling MS drums with the help of Stackers or Fork lifts. Two basic models are available. Single Drum Grab for handling single drum and Twin Drum Grab for handling two drums at a time. The attachment easily grips the drum and locks it in place as the forks lift and on lowering the drum on to the floor, the locks get released. Specially designed self locking grab arms provides excellent gripping. Designed to handle standard steel drum of 210 ltrs.

Drum Grab Twin

Drum Grab Single

Adjustable Drum Grab
For grabbing, lifting & shifting drums of variable dia
